The Hakim is no longer at Chelmsford and so there is no need to sanction any grant in aid to him The Pamock however is an old resident of the place and is a professional Nurse Midwife Her case is the only one that requires consideration The Asst Surgeon who was asked by the Surgeon to give his opinion does not especially condemn the Pamock but there is no doubt that he is opposed to giving any grant to them inasmuch as he considers that there are more pressing demands which the funds ought to meet first At the same time it is to be stated that the Asst Surgeon makes no pretence that he should not have been consulted by the Board in the first instance
